**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-16 and 24-31 are rejected under 35 U.S.C. 102(b) as being anticipated by Zappella et al. US 6,297,069.

Zappella et al. discloses a method of forming an electronic device having a chamber including preparing an outer surface of a solidified bifunctional core material (32) in a depression formed in a substrate (10), establishing a layer on the core material to define the chamber, and changing the state of core material to a fluid and removing it from the chamber (see figs. 1A –4B and related text), and where the core material can be a lowing melting point wax (see col. 12, lines 13-36).
